City of Wharton Storm Debris Collection

Wharton, TX, February 21, 2017 –

Due to the Valentine's Day storm, Waste Corporation of American (WCA) has begun collecting storm debris starting on the north end of the city and working their way down throughout town. To ensure proper and timely collection, please make sure all limbs are cut no more than 4 feet in length and stacked without any other garbage mixed in. WCA will not be able to collect any mixed trash piles. Over the next couple of weeks, WCA will continue to collect all debris from the storm, once they have collected the entire city they will begin again on the north side of town for a second attempt at collection. We apologize for any inconvenience this may have caused you due to this weather event. For questions, please call the City of Wharton at 979-532-2491.
