Andy Kirkland – Emergency Management Coordinator
Debbie Cenko – Deputy Emergency Management Coordinator
Chad Odom – Public Information Officer

County Health Authority – Dr. Jeffrey Gubbels

Wharton County, TX, April 18, 2020

Wharton County Office of Emergency Management has received **one (1)** new report of a positive case of COVID-19 today. She is a female, 35-45 years old from the El Campo area. Yesterday's additions had one incorrect address, and the person listed from the East Bernard area actually lives in the Wharton area. There are no known active cases in the East Bernard area. The total who have tested positive for COVID-19 is now **thirty-five (35)** in Wharton County. Texas DSHS also reports **zero (0)** new recoveries today leaving us **twelve (12)** reported cases who have recovered. Wharton County now has **twenty-three (23)** active COVID-19 cases.

As testing continues, our efforts to stop the virus must not slow down and we must continue to work hard to slow the spread in our area. The Executive Orders issued by Governor Abbott remain in effect statewide. The Governor has ordered Texans to stay at home, only go out and about for essential work or to retrieve essential goods. This means that you may go out to the grocery store, seek medical care and continue the use of drive-thru, pick-up and delivery services for food and drinks from local restaurants. The order also mandates all non-essential businesses to close. Further, the CDC has recommended utilizing a cloth face covering when going out in public. Residents are strongly urged to follow this and keep your face covered, especially if purchasing groceries.

**WASH YOUR HANDS
STAY HOME**

Wharton County OEM will provide updates at <http://www.co.wharton.tx.us/> and on Facebook.
